

This is a CLS phone list from about 1987 or 88. What was that person's name? The face is familiar but

Pete Chenausky and Dick Nelson had migrated to Coherent in Sturbridge, MA. Bob Mongeon had already left for Litton in Orlando as part of the purchase agreement and sale.

Allen McCormack and David Sandberg were contracted outside gypsy engineers who were working for me on the NASA program specifying space qualified parts and helping with HV power supply design.

Knick – May 2017
